

August 7, 2020

Dear Sir or Madam:

Attached is the South Carolina BMP Courtesy Exam Report for July 2020. Twenty five sites were closed out during the month. Twenty four of these sites were in compliance with applicable BMPs and no water quality impacts resulted from these forest operations.

BMPs were properly applied by those responsible, without any recommendations from a BMP Forester on twenty two sites. A BMP Forester provided recommendations during the operation to assist with compliance on one site, noted deficiencies and requested additional action to achieve compliance on one site, and one site rated unacceptable in the SMZ category.

Piedmont 3277 is an 87 acre clearcut in Laurens County. The SMZ was completely harvested along the eastern side of approximately 270 feet of perennial stream, the remaining 2,400 feet of stream had an adequate SMZ. Due to the limited length, flat topography and stable banks, the section of inadequate SMZ has not resulted in any off-site water quality impacts.

Please contact me or the appropriate BMP Forester if you need further information concerning this report. I can be reached by phone at (803)667-0815 or by email at hwelch@scfc.gov. Thank you for your interest in our BMP program.

Sincerely,

A handwritten signature in black ink that reads "Holly Welch".

Holly Welch
Environmental Program Manager

COURTESY EXAM LOG FOR JULY 2020

SOUTH CAROLINA FORESTRY COMMISSION

Site ID Number	County	Landowner Category	Forestry Operator	Road Systems	SMZs	Stream Crossings	Harvesting Systems	Site Preparation	Minor Drainage	Has Non Compliance w/ BMPs Resulted in In-Stream Impacts?
